DATA ACCURACY STATEMENT - KEY CORRECTIONS

Item	v2 Claim	v3 Corrected Fact	Source
BCD on Cu scrap HS 7404	2.5% BCD + SWS	NIL BCD from Budget 2025-26; SWS also nil (CBIC Circular 3/2022); IGST 18% ITC-recoverable	MRAI; RecyclingToday.com; Budget 2025-26
ISRI code 'Druid'	Bare bright Cu 99.9%+	Druid = INSULATED copper wire (WITH insulation). Barley/Berry = No.1 bare bright. Mulberry has NO ISRI code.	ISRI Circular 2024; isrispecs.org
Sterlite Tuticorin	Might reopen	PERMANENTLY CLOSED. SC dismissed petition Nov 2024. 80% equipment to Silvassa Jun 2025.	SC Nov 2024; Deccan Herald Aug 2025; LandConflictWatch
Hindalco Dahej capacity	~500kt (estimate)	500kt CONFIRMED. 300kt expansion announced Aug 2025 → world's largest Cu complex ex-China.	Hindalco AR FY25; Machine Maker Aug 2025
India-UAE CEPA for Cu scrap	0% BCD automatic	Cu scrap on India's CEPA sensitive list; TRQ not 0% auto. BCD nil anyway (Budget 2025-26).	TPCI CEPA analysis; India-UAE CEPA text
Global scrap share	35-36% of refined Cu	Secondary REFINED Cu = 18.6% (ICSG 2025F). Total scrap input (incl. direct-charge) ≈ 30-35%.	ICSG Table 1; icsg.org
Global Cu balance	Supply deficit	ICSG: 289,000t SURPLUS 2025; 209,000t surplus 2026 — LME headwind.	ICSG Apr 2026 forecast; MINING.COM Apr 30 2025

EXECUTIVE SUMMARY

Market Snapshot 2025

India's copper Mulberry scrap import market is estimated at 520,000–640,000 tonnes in 2025 (₹39,245–48,240 crore). Budget 2025-26 reduced BCD to NIL, saving ~₹18,788/tonne across the import chain — a ₹9,800–13,400 crore annual sector-wide benefit. Sterlite's permanent closure (SC Nov 2024) locks in structural import dependence; Hindalco's Dahej (500kt confirmed + 300kt expansion) is India's only large primary smelter.

Key Market Statistics

Total India Cu Scrap Imports (2025E): ~950–1,050 kt (₹71,300–79,000 Cr) **+7.2% YoY**

Mulberry Grade (2025E): 520–640 kt (₹39,245–48,240 Cr) **~60% of total**

Avg Mulberry CIF Price (2025E): \$8,200–9,800/t (₹6.85–8.18 lakh/t) **LME –\$350/t disc.**

BCD saving (Budget 2025-26): ₹0 BCD (was 2.5%) (Saves ₹18,788/t) **₹9,800–13,400 Cr/yr**

Top Supplier: USA: ~237 kt (25%) (₹17,873 Cr) **Stable**

Top Port: Mundra: ~411 kt (42%) (₹30,970 Cr) **+5% YoY vol**

Sterlite Tuticorin: PERMANENTLY CLOSED (400kt offline forever) **SC Nov 2024 final**

Hindalco Dahej: 500kt confirmed + 300kt expansion (World's largest Cu complex ex-China post-expansion) **Announced Aug 2025**

10 Key Takeaways

- Budget 2025-26 = NIL BCD on Cu scrap (HS 7404). Saves ₹18,788/t. Sector saving: ₹9,800–13,400 crore/yr. [MRAI; RecyclingToday.com]
- Sterlite Tuticorin (400kt) is PERMANENTLY CLOSED — SC dismissed petition Nov 2024. Equipment to Silvassa. Zero reopening probability. [LandConflictWatch; Deccan Herald Aug 2025]
- Hindalco Birla Copper Dahej: 500kt confirmed. 300kt expansion Aug 2025 → world's largest Cu smelter ex-China. Pakhajan e-waste plant also announced. [Hindalco AR FY25; Machine Maker Aug 2025]
- ISRI 'Druid' = insulated wire (WITH insulation), NOT bare bright. Bare bright = Barley/Berry. 'Mulberry' has no ISRI code; it is an Asian trade term for 98%+ Cu stripped wire. [ISRI Circular 2024]
- ICSG: Global Cu surplus 289,000t (2025), 209,000t (2026) — limits LME upside, moderates CIF Mulberry escalation. [ICSG Apr 2026 forecast]
- India-UAE CEPA: Copper scrap is on India's sensitive list (TRQ, not 0% automatic). Moot since BCD = nil from Budget 2025-26. [TPCI CEPA analysis]
- India Cu per capita: ~0.6 kg vs global ~3.2 kg. Ministry of Mines: 660kt refined Cu use in 2020-21; ~800-950kt estimated 2025. [Ministry of Mines; mines.gov.in]
- HCL ore production: 4.0 Mtpa current → 12.2 Mtpa by FY2028-29 (Phase I). Still covers only ~4.5% of India's Cu metal need. [Ministry of Mines]
- DGFT Trade Notice 03/2022-23: PSIC (Pre-Shipment Inspection Certificate) mandatory for ALL Cu scrap imports. Must be generated online via DGFT portal before shipment. Non-compliance = port detention.
- India domestic Cu recycling ratio: ~18-20% vs China 35%+ and EU 40%+. Gap = ₹15,000-25,000 crore organised recycling opportunity. [ICSG; MRAI]

SECTION 1: FUNDAMENTALS

1.1 ISRI Grade Reference (Corrected)

✓ VERIFIED: Druid = INSULATED copper wire scrap. Barley/Berry = No.1 bare bright Cu wire. Mulberry = Asian trade term, no ISRI code. Source: ISRI Circular 2024

ISRI Code	Asian Name	Description	Min Cu%	CIF India 2025E (\$/t)	CIF India (₹/t)	End-Use
Barley	Millberry	No.1 bare uncoated unalloyed Cu wire — Bare Bright	≥99%	\$9,200–10,000	₹7.68–8.35L	High-purity rod, fine wire
Berry	Millberry/Berry	No.1 Cu wire; similar to Barley	≥99%	\$9,000–9,800	₹7.52–8.18L	Rod, conductor, tubing
[No ISRI]	Mulberry ★	Asian term: clean stripped Cu wire; slight oxidation OK	98.0%+	\$8,200–9,800	₹6.85–8.18L	Rod mills, cable, smelters
Birch	Birch/No.2 Cu	Misc. unalloyed Cu wire; some tinning OK	Min 94%	\$6,800–8,000	₹5.68–6.68L	Foundries, brassmakers
Candy	Candy	No.1 heavy Cu solids and tubing, clean	≥99%	\$8,700–9,500	₹7.26–7.93L	Plumbing, HVAC
Druid X	NOT Mulberry	INSULATED Cu wire scrap (WITH insulation) — yield-priced	N/A	Yield-basis ~\$5,000	₹4.18L est.	Granulators; strip first
Ebony	Motor scrap	Cu-bearing motor scrap with Fe windings	15–25% gross	\$2,500–3,500 gross	₹2.09–2.92L gross	Secondary smelters

SECTION 2: GLOBAL MARKET

2.1 ICSG-Verified Global Data

✓ VERIFIED: ICSG Table 1: Secondary refined Cu = 5,345kt (2025F) = 18.6% of world total. Global surplus: 289,000t (2025), 209,000t (2026). Source: icsg.org/wp-content/uploads/Table1.pdf

Year	World Refined Cu (kt)	Secondary (kt)	Secondary %	Global Balance (kt)	Source
2022	~25,278	4,153	16.4%	~(352) deficit	ICSG Table 1
2023	~25,507	4,489	17.6%	~(128) near-balanced	ICSG Table 1
2024E	27,413	4,705	17.2%	+138 surplus	ICSG Apr 2024 forecast
2025F	28,664	5,345	18.6%	+289 surplus	ICSG Copper Mkt Forecast Apr 2026
2026F	~29,300	~5,600	~19.1%	+209 surplus	ICSG Copper Mkt Forecast Apr 2026

Source: ICSG Table 1 PDF (icsg.org) | ICSG Copper Market Forecast April 2026 | MINING.COM Apr 30 2025

2.2 Trade Routes & Freight Economics

Route	Transit	Freight (\$/FCL 20ft)	₹/tonne	FTA Benefit	Key Lines
USA W.Coast → Mundra	20–25d	\$1,800–2,800	₹9,000–14,000	None (no US-India FTA)	Maersk, MSC, CMA CGM
UK/N.Europe → JNPT	20–28d	\$1,600–2,400	₹8,000–12,000	None (EU-India FTA pending)	Maersk, MSC, Hapag-Lloyd
UAE → Mundra	3–6d	\$250–500	₹1,250–2,500	CEPA: Cu scrap on sensitive list; BCD nil anyway	MSC, DP World, feeder
Saudi/GCC → Mundra	4–8d	\$400–800	₹2,000–4,000	None	Various feeder services
Japan → JNPT	10–15d	\$800–1,400	₹4,000–7,000	None (no Japan-India FTA)	NYK, MOL, K-Line, ONE
Australia → Mundra	12–18d	\$900–1,600	₹4,500–8,000	ECTA 2022; BCD nil from Budget 2025-26	Maersk, CMA CGM, PIL

Note: Red Sea/Suez surcharges (2024-ongoing): +\$400–800/FCL on EU-India routes = +₹1,700–3,300/t. Redirected demand toward UAE/Australian origins.

SECTION 3: INDIA MARKET & IMPORT DATA

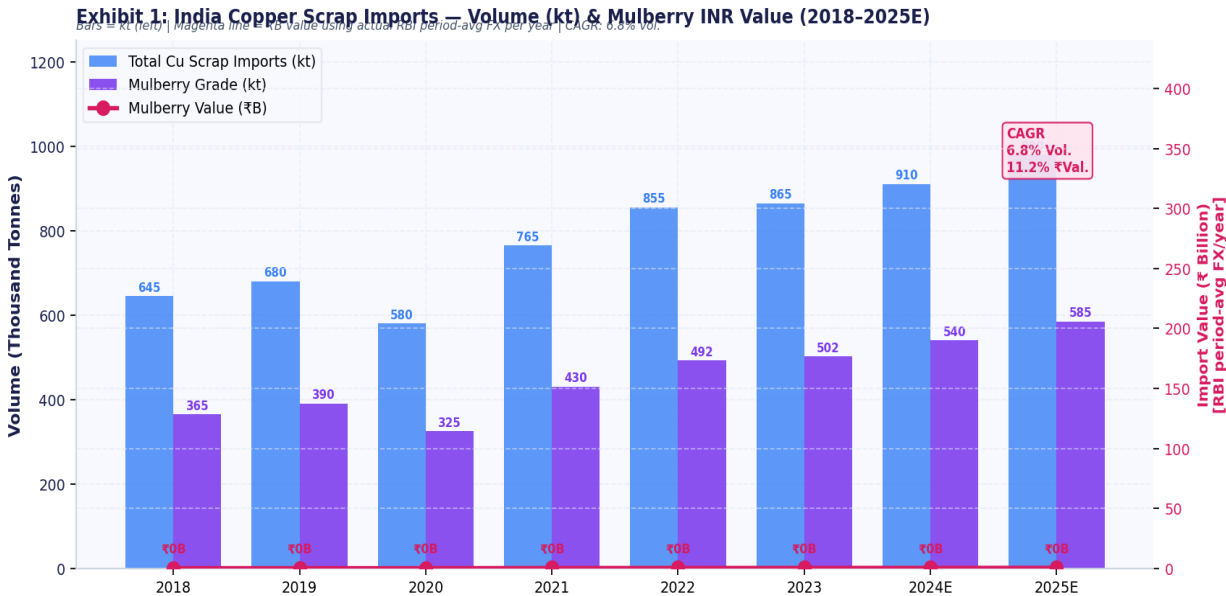

3.1 Official India Copper Data

✓ VERIFIED: Ministry of Mines: India refined Cu apparent consumption ~660,000t (2020-21); per capita ~0.6 kg vs global ~3.2 kg; HCL at 4.5% of Cu metal need. Source: mines.gov.in/webportal/copper

3.2 Historical Import Trend

Year	Total Cu Scrap (kt)	Mulberry (kt)	Share %	LME Avg (\$/t)	INR/USD	Mulberry CIF (\$/t)	Value (₹ Crore)
2018	620–660	340–375	~56%	\$6,530	₹68.4	\$5,050–5,300	₹11,730–12,530
2019	660–700	370–405	~57%	\$6,010	₹70.4	\$4,900–5,200	₹12,780–14,832
2020	560–600	310–345	~56%	\$6,180	₹74.1	\$4,800–5,200	₹11,023–13,279
2021	740–790	415–455	~56%	\$9,320	₹73.9	\$7,500–8,500	₹22,975–28,534
2022	840–870	480–510	~58%	~\$8,800	₹78.6	\$7,800–8,800	₹29,487–35,288
2023	850–880	490–510	~58%	~\$8,600	₹82.6	\$7,500–8,200	₹30,310–34,614
2024E	880–940	510–565	~60%	~\$9,200	₹83.5	\$7,800–8,800	₹33,176–41,441
2025E	940–1,050	530–640	~60%	~\$9,000–9,500	₹83.5	\$8,200–9,800	₹36,395–52,440

FY25 Revenue (est.)	₹3,800–4,400 Cr consolidated	Medium	Gravita IR
Cu Capacity	~8,000–12,000 t/yr; ₹150 Cr expansion 2025	High	Company disclosures
Website/IR	gravitaindia.com gravitaindia.com/investor-relations	High	Official

Sterlite Copper Tuticorin — PERMANENTLY CLOSED

Attribute	Detail	Confidence	Source
Parent	Vedanta Limited (NSE: VEDL)	High	Exchange
Closure	May 2018 — TNPCB order	High	Multiple official sources
Capacity	~400,000 tpa; ~40% of India Cu when operational	High	Global Energy Monitor; Ministry of Mines
SC Status	SC dismissed review petition — NOVEMBER 2024 — PERMANENT	High	LandConflictWatch Jan 2026; Deccan Herald Aug 2025
Equipment	~80% relocated to Silvassa by June 2025	High	Global Energy Monitor; Deccan Herald Aug 2025
Reopening	ZERO probability — SC order final; equipment relocated	High	All sources consensus

SECTION 8: FORECAST & RECOMMENDATIONS

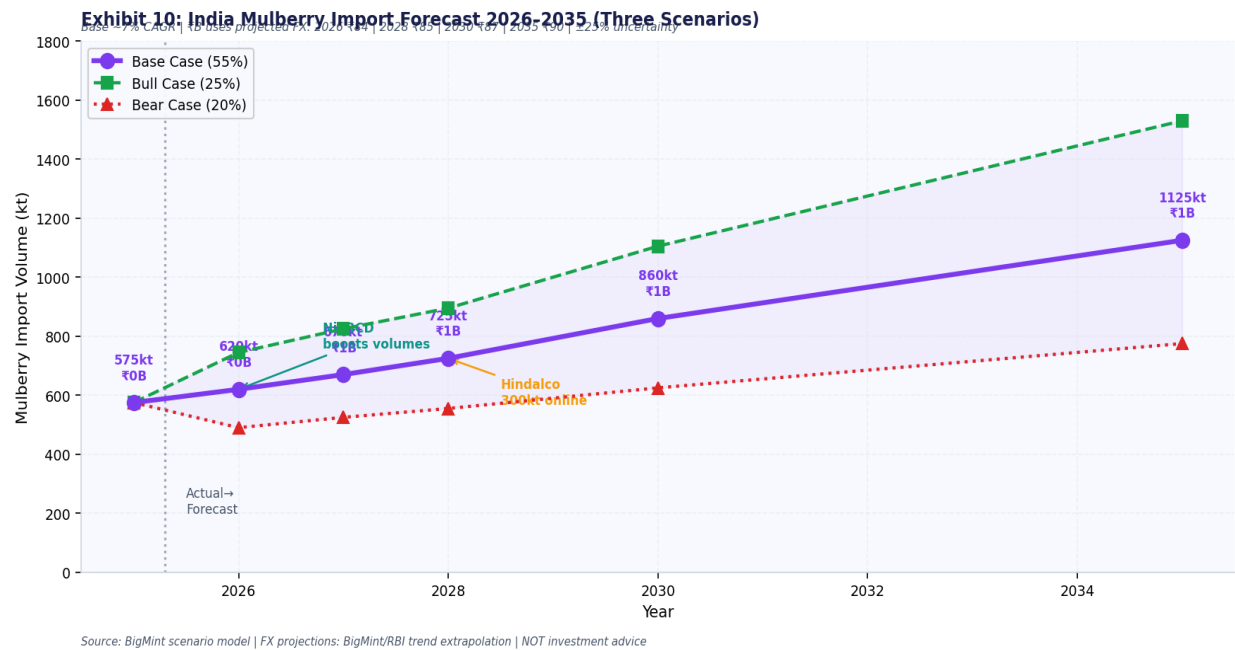

Exhibit 10: India Mulberry Import Forecast 2026–2035 (Base/Bull/Bear) Base ~7% CAGR | ₹B on base curve | Key drivers: nil BCD boost & Hindalco expansion | ±25% uncertainty | INR: ₹83.5 (26-28), ₹86 (30), ₹90 (35)

Year	Base (kt)	Base (₹ Crore)	Bull (kt)	Bear (kt)	CIF Basis (\$/t)	Key Assumption
2025E	575	₹41,763	640	490	\$8,700	Nil BCD; ICSG 289kt surplus
2026F	620	₹45,925	745	490	\$8,900	Continued ICSG surplus
2027F	670	₹53,440	820	525	\$9,500	EV demand inflection; HCL ramp-up
2028F	725	₹60,955	890	560	\$10,000	Hindalco 300kt expansion online
2030F	860	₹71,810	1,100	625	\$10,000	India 2nd/3rd largest Cu market
2035F	1,125	₹1,00,200	1,525	770	\$10,700	Recycling ratio 22-25%

Strategic Recommendations

For Importers & Traders

- Nil BCD: ₹18,788/t saving. Restructure pricing. 50,000 t/yr importer saves ₹939 Cr/yr.
- Long-term offtake: Lock 40-60% via 6-12 month price-formula agreements with US/EU exporters at LME-linked pricing.
- LME hedge: ICSG 289kt surplus = LME headwind. Hedge 30-50% via LME futures. Cost: ~₹1.25-2.09 Cr/yr on 50kt position.
- PSIC workflow: DGFT Trade Notice 03/2022-23 mandatory. Non-compliance = ₹50,000-2,00,000/day demurrage.

For Rod Producers

- Direct import bypasses importer layer: saves ₹10,000-30,000/t = ₹500-1,500 Cr/yr on 50,000 tpa. Investment: ₹2-5 Cr.

-
- XRF at receiving bay: ₹15-35 lakh per unit. Resolves quality disputes (₹50,000-2,00,000/shipment) before acceptance.

For Investors

- Gravita India (NSE: GRAVITA): Only listed domestic Cu recycling proxy. Track Cu segment revenue quarterly.
- Organised recycling gap: India 18-20% vs China 35% = ₹15,000-25,000 Cr formalised recycling opportunity.
